

Portraits of Hope

Transforming photos into timeless memorials

The Crisis Center is proud to announce a partnership with Bill Small, a local artist, to offer clients, volunteers, and staff a unique opportunity to honor and memorialize a lost loved one.

Portraits of Hope transforms a simple picture into a beautiful one-of-a-kind portrait that can be treasured for years to come. The portrait project is offered at no cost to Crisis Center clients, volunteers, and staff as part of their journey through grief and in many cases, an important step towards healing and hope.

To participate in the project, you will need to complete the Information Form on our website and upload a digital picture of your loved one:
